Accessing the Service Delivery Console

Use the Menu or via the Single Sign On
(sso.x-onweb.com)

Select an application

CC Configuration Console https://config.x-onweb.com	R Reports https://reports.x-onweb.com	SD Service Delivery Console https://build.x-onweb.com
SP Soft Phone https://phone.x-onweb.com	SP Support Portal https://support.x-onweb.com	UC User Console https://console.x-onweb.com
V Voicemail https://voicemail.x-onweb.com	W Wallboard https://wallboard.x-onweb.com	X X-flow https://xflow.x-onweb.com

The screenshot shows the top right corner of the Service Delivery Console interface. It features a user profile icon with the initials 'JH' and a hamburger menu icon. A dropdown menu is open, listing the following options:

- CC** Configuration Console
- SDC** Service Delivery Console
- SP** Soft Phone
- SP** Support Portal
- UC** User Console
- V** Voicemail
- W** Wallboard
- X** X-flow
- H** Help Centre
- L** Logout

SURGERYCONNECT

Users Extensions Groups Calendars Numbers ☰ JH

Welcome to Surgery Connect

Your surgery has signed up for Surgery Connect - the Cloud-based phone system trusted by hundreds of healthcare providers across the UK.

But Surgery Connect is much more than a desk phone system. Here's what's included for you and your team:

- ✓ Full management of your team members and phone numbers - you're in control of how your system works
- ✓ What's going on in the surgery at a glance - all the stats you could want on your desktop
- ✓ Full integration with patient records (e.g. EMIS, SystemOne) - for seamless phone triage with patients
- ✓ Call from any device you want - desk phone, mobile, landline or our Softphone - it will always come from your surgery number and won't cost you a thing
- ✓ Staff can be located anywhere in the practice, or even work remotely and receive all calls intended for them

Click on the
Extensions menu

Extensions

In your contract with Surgery Connect you signed up for new Yealink desk phones which we'll be setting up at your surgery. You can now define who can use each of these.

INTRODUCING YOUR NEW PHONES

Your surgery will be fitted with Yealink phones - the latest in IP telephony with all the features you and your colleagues could need:

- ✓ Four types of phone - standard, reception, cordless and video - your contract will tell you which ones you'll be getting
- ✓ 3-way conference calls (optional)
- ✓ Speakerphone
- ✓ Personal ringtones and voicemail
- ✓ Call hold, Waiting and Transfer
- ✓ All users can log into every desk phone (unless you choose to restrict access) - perfect for hot desking

When accessing the page for the first time, an introduction will be displayed

Accessing Extensions

THINGS TO REMEMBER

- ✓ You'll need to give your phones meaningful names - it's best to name them by the room they'll be used in, for example 'Consultation room 1'.
- ✓ A single desk phone can be used by more than one person, but people should always log into and out of phones so the Surgery Connect system knows who is making and taking the calls.
- ✓ You don't need to wait for your desk phones to make and take calls - Surgery Connect comes with a softphone allowing you to make and receive voice and video calls right in your Web browser, on your PC, tablet or smartphone.
- ✓ By default every person using Surgery Connect can log into each phone - only by choosing specific people or teams do you restrict access.

READY TO GET STARTED?

The screenshot shows the top right corner of the Configuration Console interface. It features a hamburger menu icon and a user profile icon labeled 'JH'. A dropdown menu is open, listing the following options:

- CC** Configuration Console
- SDC** Service Delivery Console
- SP** Soft Phone
- SP** Support Portal
- UC** User Console
- V** Voicemail
- W** Wallboard
- X** X-flow
- H** Help Centre
- Logout**

Configuration Console - Extensions

The screenshot displays the SURGERY CONNECT Configuration Console interface. The top navigation bar includes the SURGERY CONNECT logo, a help icon (?), a menu icon (≡), and a user profile icon (JH). The main content area is divided into two sections: a sidebar on the left and a dashboard on the right.

The sidebar, titled "X-on Training Account", contains the following menu items:

- Services
- Users
- Extensions
- Groups
- Calendars
- Directory
- Integrations
- X-Flow
- Global settings

The dashboard, titled "Dashboard", displays three key metrics:

- Users: 48
- Groups: 16
- Calend...: 3

A callout box with the text "Select Extensions from the menu" points to the "Extensions" menu item in the sidebar.
